

Design, build and Launch of a Re-entry CubeSat

Function:

Business Development Manager

One open vacancy

Aether's project

The Aether Student CubeSat team brings together young Belgian engineers who are passionate about space technology. We are designing a CubeSat: a nano-satellite small enough to hold in your hand. In the past decade, the CubeSat standard has enabled countless new innovations in the space industry, and we are determined to uphold this tradition! Aether is focusing on the area of re-entry: creating the technology that will allow future CubeSats to safely re-enter the atmosphere and land on Earth after carrying out their experiments in orbit. This will allow scientists to analyze samples and get even more results out of their experiments, and all this with the affordability and accessibility that come with the CubeSat platform!

Function description

As Business Development Manager, you are responsible for finding new prospects and establishing new partner contracts. In addition, you have to follow up current partners and coordinate partner correspondence. You are the point of contact for your fellow teammates when they have to get in touch with technical companies and support them when needed. Furthermore, you are the manager of Aether's pitch presentations and communication documents. Finally, you have to work closely with the marketing manager, as you have to arrange, initiate and send Aether's newsletter to our partners and enthusiasts.

What do you gain?

- 🔗 A unique experience within an exciting space mission.
- 🔗 Create added value for your CV and the team.
- 🔗 Improve your (soft) skills on many aspects.
- 🔗 Be part of the team that will revolutionize the CubeSat platform.
- 🔗 Connection to a wide network of aerospace companies.

Profile

- 🔗 Minimum bachelor's degree.
- 🔗 Communication & negotiation skills.
- 🔗 Pitching skills.
- 🔗 Confident in approaching potential partners.
- 🔗 Social attitude.
