

Design, build and Launch of a Re-entry CubeSat

## Function:

## Marketing Manager

One open vacancy

## Aether's project

The Aether Student CubeSat team brings together young Belgian engineers who are passionate about space technology. We are designing a CubeSat: a nano-satellite small enough to hold in your hand. In the past decade, the CubeSat standard has enabled countless new innovations in the space industry, and we are determined to uphold this tradition! Aether is focusing on the area of re-entry: creating the technology that will allow future CubeSats to safely re-enter the atmosphere and land on Earth after carrying out their experiments in orbit. This will allow scientists to analyze samples and get even more results out of their experiments, and all this with the affordability and accessibility that come with the CubeSat platform!

## Function description

As marketing manager you are responsible for the marketing and public relations of Aether. You will promote Aether through social media and keep it up to date with interesting posts about our latest news and events. You can let your creativity go wild by designing PR material like posters, flyers, banners or anything you can think of. Furthermore, you have to work closely together with the business manager to create an exciting newsletter and send it to our partners. Finally, you will maintain and update our website.

## What do you gain?

- 🚀 A unique engineering experience within an exciting space mission.
- 🚀 Create added value for your CV and the team.
- 🚀 Improve your (soft) skills on many aspects.
- 🚀 Be part of the team that will revolutionize the CubeSat platform.
- 🚀 Connection to a wide network of aerospace companies.

## Profile

- 🚀 Minimum bachelor's degree.
  - 🚀 Creative.
  - 🚀 Experience with graphic design.
  - 🚀 Communication skills.
  - 🚀 Social attitude.
  - 🚀 Motivated team player.
- Bonus
- 🚀 Experience with web programming.
  - 🚀 Experience with social media management.
